Transition Town Bridport - a project working to bring together the people of Bridport to plan a life beyond dependence on oil, to reduce the carbon footprint of the town and to make it resilient to change.

As you'd expect from TTB we've been busy! See below for a summary of our activities and the promise of an even greener drinking session at some point in the future ([click here to find out more](#)).

Don't forget our market stall (we've joined forces with other like-minded folk) this Saturday, the 12th December 2020 on Barrack Street. Please do come along and meet us - at a social distance. Meanwhile in other news:

Meetings with Chris Loder

West Dorset Environmental Alliance has been meeting with Chris Loder to brief him on environmental issues. We include representatives of West Dorset Friends of the Earth, Turn Lyme Green, Beaminster ECO group and TTB.

In the process we have written briefing papers which may be of interest:

- [Renewable energy](#) (with thanks to Henry)
- [The Green Homes](#) grant and retrofitting
- [Plastics](#) (with thanks to Polly)

- Retrofitting in conservation zones and listed buildings (with thanks to David)

2. TTB and Seeding our Future are planning a zoom meeting on 12 January at 7.00-8.30 on “**Digging Deeper into Local Food**”. Save the date, more information will be sent out in the New Year..

3. Dorset Council’s Climate and Ecological Emergency strategy and action plan has extended the consultation period for another month. We urge you to respond in some way – a limited response on one or two issues is as useful as a comprehensive study. The link is here Dorset council is to be congratulated for an extensive plan, but does the long time scale (carbon zero by 2050) and lack of intermediate targets seem reasonable?

Wishing you and your loved ones a happy and jolly safe Christmas.

Best regards

TTB

If you have a friend or colleague who would like to be added to our mailing list, please forward this email to them and ask them to opt in via the link [here](#).
